AFIF AHAMED | DAY 2 - BANGLADESH WINTER

# Hoodie Wars: Fabrilife vs SaRa

Same product. Same November feed. One wins 11.11 cold traffic, one burns it.

Mens Premium Hoodie 1850 BDT vs Winter Hoodie Jacket 850 BDT

Nov 5, 2026 - BD Winter Special - Complete kit for Google AI Studio

## How to use this PDF with AI Studio

Give this PDF to Google AI Studio and say: 'Build my #breakdown/ab-6 blog section using this exact structure, keep my analytical tone (observable vs inference), place images where you see [SCREENSHOT], render score bars + table, end with Work With Me CTA.' Then publish blog first, then we post LinkedIn with the new blog link.

## 1. The 2 brands - exact products + links (same product: hoodie)

MOST POPULAR PRODUCT THIS MONTH (BD, November): Men's premium hoodie / hoodie jacket. Reason: 11.11 sale + cold mornings/long evenings + office/varsity daily wear. Sources: Fabrilife easiest pick for hoodies, Cat's Eye/adlib for jackets, Daraz winter-collection-2026-for-men spike, SaRa Winter 25/26 drop.

**Daraz spike:** https://www.daraz.com.bd/tag/winter-collection-2026-for-men/

WINNER - Brand 1: Fabrilife. Product: Mens Premium Hoodie - Winterbound / Polarize (1850 BDT single, unisex, cotton). Angle: 'Designed for cold mornings and long evenings, warmth without weight. Clean lines, premium fabric, relaxed structure.'

**Fab win 1:** https://www.facebook.com/fabrilife/posts/1168713178682335/ (cold mornings angle)

**Fab win 2:** https://www.facebook.com/fabrilife/posts/1162539662633020/ (Winterbound 1850 BDT)

**Fab win 3:** https://www.facebook.com/fabrilife/posts/1154418276778492/ (Polarize - cozy confident)

**Fab catalog:** https://www.facebook.com/fabrilife/photos/684642340422757/ (1590 BDT hoodie)

LOSER PATTERN - Brand 2: SaRa Lifestyle Ltd. Product: Winter Hoodie Jacket (850 BDT incl VAT, synthetic fabric). Angle: 'Perfect blend of comfort and coolness / Stay warm stay fashionable. Nearly sold out. Grab yours now!' Strong offline distribution, but creative = catalog flat-lay, weak for cold.

**Sara video:** https://www.facebook.com/saralifestyle.bd/videos/winter-2526-is-here/3340360019448684/

**Sara post 1:** https://www.facebook.com/saralifestyle.bd/photos/789001626592548/ (hoodie jacket comfort+coolness)

**Sara post 2:** https://www.facebook.com/saralifestyle.bd/posts/768392368653474/ (850 BDT synthetic)

**Sara post 3:** https://www.facebook.com/saralifestyle.bd/posts/789018139924230/ (high-quality essential)

Analytical note: This compares publicly observable creative + landing patterns. Price, fabric, and run context are observable. ROAS/CTR numbers are hypotheses marked as such. No private dashboard data claimed.

## 2. Screenshot map - what AI Studio must show

**[SCREENSHOT] WIN-1 Hook**

Fabrilife model in hoodie on foggy morning street/Dhaka rooftop, breath visible, text overlay: 'Cold mornings? Sorted.' Caption: 'Human + context in 2s.'

## 3. Visual story - creative scores (render as bars)

AI Studio: render as green vs red bars. Founders get it in 10 seconds.

**Hook (first 3s)**

**Proof / Demo**

**Offer clarity + COD**

**CTA + Landing match**

## 4. Full breakdown copy

TL;DR: Same hoodie need, different job. Fabrilife sells a November morning (cold air, bike ride, varsity). SaRa sells a product code. In BD COD + size-exchange fear, story + proof beats catalog + discount.

WINNER HOOK (observable): Lifestyle photo/video, real person wearing Winterbound/Polarize outdoors, Bangla-English hook 'Winter mornings and long evenings'. WHY IT WINS: self-identifies Dhaka commuter/student in 2s, shows fit on body (solves size fear), premium cotton texture visible, native to feed not catalog.

WINNER CREATIVE: 3 beats - 1) context (foggy street), 2) fabric (stretch + inside fleece), 3) fit (front + back + hood up). No studio gradient. Caption lists fabric, GSM, unisex, office time 10AM-8PM. Inference: reduces 'kapor patla hobe?' objection that kills BD COD.

WINNER OFFER/COPY/CTA: 1850 BDT single (1590 older), clear CTA Order via inbox/website + COD + exchange. Psychology: replacement (one good hoodie for whole season), social proof via comments ('offer price?'), risk reversal via exchange. Funnel: Meta/TikTok -> single PDP with size chart -> bKash/COD -> WhatsApp confirm. Hypothesis: higher AOV but lower return: Net Delivered ROAS wins.

LOSER HOOK (observable): Ghost-mannequin hoodie on white, headline 'Stay warm stay fashionable' / 'Perfect blend of comfort and coolness'. WHY IT LOSES: no human = no size cue, generic adjective = no memory, looks like Daraz listing. Hypothesis thumb-stop <18%.

LOSER COPY/CTA: 850 BDT incl VAT, synthetic fabric, 'Nearly sold out Grab yours now!' + Shop Now -> collection page. WHY IT LOSES: cheap price signals thin fabric in BD winter (trust drop), fake scarcity with no count, synthetic hides breathability fear, collection page forces hunt. COD order -> high return when real feel != photo.

BD-SPECIFIC FRICTION: COD + check-before-payment + size exchange. Winner shows size chart + exchange window + real body. Loser hides it. Media buyer lesson: in BD, creative must pre-handle return reasons, not just click.

## 5. Side-by-side table

| Element | Fabrilife WIN | SaRa pattern |
|---|---|---|
| Element | Fabrilife (WIN) | SaRa (LOSE PATTERN) |
| First 3s | Human + foggy morning + hoodie on | Manequin on white + slogan |
| Trigger | Cold morning sorted | Stay fashionable |
| Claims | 1: warmth without weight | 3: comfort+coolness+fashion |
| Proof | Stretch + fleece + fit on body | None, catalog only |
| Specificity | 1850 BDT, cotton, GSM, unisex | 850 BDT, synthetic, no GSM |
| Offer | COD + 7-day exchange + clear price | 850 cheap + vague urgency |

| | | |
|---|---|---|
| CTA/Landing | Order -> single PDP size chart | Shop Now -> 20-item collection |
| Returns | Pre-handled (fabric+fit+exchange) | Surprise (thin/synthetic fear) |
| Lifespan | Iterated winners Polarize/Winterbound | One-post catalog, low saves |

## 6. 48-hour fix for SaRa (loser) - keep product, change creative

- Keep same 850 BDT jacket. Reshoot 15s iPhone: boy wears it on bike at 7am + hood up + zip close-up. First text: 'Sokal 7tay bike-e thanda lage?'
- Kill catalog. Show 1 proof: inside fleece rub + wind test (candle/hair dryer). 6s demo beats 6 features.
- Swap copy: Headline '850 TK Winter Hoodie - Fleece Inside' Body 'Size M-XXL, COD, check-before-pay, exchange if size wrong.' CTA Inbox with size chart image.
- Add trust: overlay '1200+ sold' if true OR 'Sara outlet-e giye dekhe nin' + outlet list + real try-on video. Offline trust is SaRa edge - use it.
- Test 3 hooks same body: (a) 850 TK-te hoodie? Fabric dekho (b) Bike riders: kan thanda? Hood test (c) 11.11: 1 hoodie full winter. Winner reveals language for scaling.

Hypothesis: same budget, human + proof + COD clarity cuts return rate (key BD metric) and lifts CTR 0.7% -> 1.5% in 2 weeks.

## 7. LinkedIn draft - DO NOT POST, wait approval (with visuals note)

POST TEXT (optimized for founders + recruiters + media buyers): Hook: BD winter is here. Same hoodie, 2 ads. One will own 11.11, one will pay COD returns. I broke down Fabrilife (1850 BDT) vs SaRa (850 BDT). Winner sells a 7am bike ride, not a jacket. Loser sells a catalog code. Full flaws + pros + 48h fix + screenshot map in blog (LINK AFTER YOU PUBLISH). Day 2 of daily Winning vs Losing. Follow for BD DTC breakdowns. Hashtags: #Bangladesh #DTC #MetaAds #MediaBuying #EcommerceBD #WinterCollection

VISUALS: Slide 1: split hook (human vs mannequin). Slide 2: score bars from Sec 3. Slide 3: funnel (PDP vs collection). Slide 4: CTA Work With Me. Carousel gets 3x saves for recruiters.

FIRST COMMENT (after blog live): Full blog here: [YOUR NEW BLOG LINK ab-6] - includes table + fix plan. Which hook would you test first for BD COD?

## 8. For AI Studio - site JSON + prompt

Prompt: 'Add gn entry id ab-6, slug bd-winter-hoodie-fabrilife-vs-sara-2026, brandName Fabrilife vs SaRa Lifestyle, industry Winter Fashion / Ecom BD, title Hoodie Wars: Why Fabrilife 1850 BDT Story Beats SaRa 850 BDT Catalog in November, date Nov 05 2026, 7 min read. Use Sec 4 copy, Sec 5 table, Sec 3 bars, 6 screenshot boxes Sec 2, CTA AhamedAfif87@gmail.com. Keep observable vs inference distinction.'

```

## 9. Client CTA (end of blog)

I audit BD winter creatives for COD returns, not just CTR. If your hoodie/jacket ad dies after 7 days, I tell you why in one teardown. Email: AhamedAfif87@gmail.com | Contact: https://frage3r.github.io/AfifAhamedLam/#contact | Next: Vaseline vs Meril winter lotion? Tell me niche.

Workflow: PDF -> you publish blog -> you approve LinkedIn draft -> I post with blog link + first comment. No auto-post.
